Providing Quality Care and Education for Young Children

“To be Healthy, to be Safe, to be Friendly & to be Respectful” in all we do.
The Lands End School (TLES), formally known as the Cheryl Andersen Sorensen Childcare Center (CASCC), began as a small grassroots effort to provide quality childcare for the employees of the SFVA Medical Center (VA). We are a private, not-for-profit childcare center which began in 1986 and opened its doors in 1991. TLES has grown and evolved into a successful early childhood program serving families of the VA and the surrounding community.

Our Mission:
- To preparing young children for future school experiences.
- Play provides the foundation for learning.
- To provide an intimate, relationship-based and nature-rich environment.

Our Philosophy:
- To help children develop a positive self-image
- To encourage them to explore their natural sense of wonder
- To accommodate each child for their own individual and unique potential
- To bring together children and families of varying race, ethnicity, gender, national origin, religious affiliation and/or abilities.

We remain successful through the commitment of our staff, families, and our partnership with the VA community and the surrounding community.

Our Values:
- To provide an environment in which each child feels safe, secure, and nurtured
- To develop relationships with children are based on respect and kindness
- To provide a child centered program where play is the foundation for learning
- To provide developmentally appropriate activities for all ages which support social, emotional, cognitive, language and physical development.
- To partner with parents throughout their child’s experience in our program.
