

Mother's Helper Needed!

Hello,

I am a mom to an almost 5-year old and we will have a new baby joining us soon. We live in San Francisco, and I am looking for a mother's helper. I believe this would be a great opportunity for a student in the Early Childhood Program, or those who work with school-age kids. Essentially, I am looking for someone to come over and spend time with my almost 5-year old son from 6 pm until 8 or 8:30 pm every night while I tend to the baby from late August or early September until mid October and then have this same schedule again from February through April. There are specific months out of the year where I will need a mother's helper, and it would be great to establish a relationship with someone trustworthy so that we could continue with this schedule throughout the year. It would be approximately 10 hours of work per week from August to October and from February through April. This individual could play games with my son, get him interested in books and reading and just talk to him - this would be just added assistance while I have a new baby in the household.

The rate per hour for this would be negotiable – I would love to learn what you are looking for!

If this Mother's Helper position is something that you are interested in, please give me a call at 415-307-6486.

Thank you!
