Data Collection for Preschool Assessments of Social and Emotional Learning in San Francisco

Position Summary: Dr. Jelena Obradović (https://sparklab.stanford.edu/) is currently seeking to hire research assistants to conduct assessments of preschoolers’ social-emotional skills (e.g., executive functions, emotion knowledge, social problem solving, empathy, theory of mind) using table-top and tablet-based measures.

In this role, you will:

- Receive training in child assessment protocols.
- Conduct assessments of preschoolers’ social-emotional skills in classroom settings in San Francisco, CA.

This role requires:

- Four hours of virtual training and six hours of in-person training at Stanford University in late August.
- Commitment to work in preschools throughout San Francisco for at least one morning (approximately 9:00 AM – 12 PM) per week for 8 or more weeks between September 1 and November 15.
- Travel to Stanford University for training and to preschools throughout San Francisco.
- Having a valid driver’s license and access to a car would be helpful, but is not required.
- A negative TB test and a fingerprint background check.
- Proof of COVID-19 vaccination with recent booster.
- Spanish or Cantonese fluency is highly desirable, but not required.

To be successful in this role, you will bring:

- Interest in getting field experience working in schools.
- Interest in child development or early childhood education.
- Prior experience working with young children
- Strong attention to detail.

Research assistants will gain practical experience in the field of early childhood education and learn about social and emotional learning skills. The ideal candidate will be friendly, outgoing, and enjoy working with teachers and children.
